COMMITTEE ON LICENSE.

REPORT AS TO STATUS OF PENDING RESOLUTION CONCERNING LIMITATION ON NUMBER OF RETAIL ALCOHOLIC LIQUOR LICENSES.

The Committee on License submitted the following report, which was ordered published and *Placed on File:*

CHICAGO, May 26, 1965.

To the President and Members of the City Council:

At the written request of the Alderman of the 47th Ward, under Rule 45 of the Rules of Order of the City Council, for a report on a proposed resolution referred to the Committee on License (on June 15, 1962), requesting the Committee to give consideration to the matter of limiting the number of retail alcoholic liquor licenses to be issued by the City of Chicago, I beg to report as follows:

From time to time the Committee has held series of hearings on the subject of limiting the number of retail alcoholic liquor licenses to be issued by the City. No definite action ever resulted from the hearings because it was the consensus of the members that there was nothing that could be done until and unless the Liquor Control Act of the State of Illinois, which provides in Article VI, Paragraph 1, that a retail alcoholic liquor license is a personal privilege that cannot be assigned and does not descend to heirs, is amended to permit some form of right of assignment in the event of the death of a licensee.

Bills have been introduced at a number of sessions of the General Assembly of the State of Illinois seeking this objective, but have never been enacted.

I have advised the Alderman that a hearing will be held on the subject-matter of the said proposed resolution at an early date.

Respectfully submitted,

(Signed) GEORGE J. TOUREK,
Chairman.

Court Decisions.

Stanley Ogradney, Petitioner-Appellee, v. *Richard J. Daley, Mayor, as Local Liquor Control Commissioner,* Appeal from the Circuit Court of Cook County; *Illinois Appellate Court No. 49996.* On June 3, 1965, the Illinois Appellate Court filed an opinion reversing the judgment of the lower court in the above entitled cause. The Circuit Court had awarded the plaintiff a Write of Mandamus ordering the Mayor as Local Liquor Control Commissioner to restore food dispenser license for the Crossroads Restaurant at No. 400 S. State Street, Chicago, Illinois. The reversal of this judgment upholds the discretionary action of the Mayor as Local Liquor Control Commissioner wherein ineligible persons seek licenses by subterfuge.

Henry Bowens, Petitioner v. *Lamar Knazze and Robert Frawley, Respondents. Miscellaneous Record No. 105.* On June 1, 1965 the United States Court of Appeals denied a petition for leave to appeal in *forma pauperis.* The petitioner is a prisoner in the Illinois State Penitentary at Joliet and under the Civil Rights Act brought an action for damages for alleged illegal search of his person by officers of the Chicago Police Department. The petitioner filed two complaints which were stricken and the cause denied. The United States District Court denied leave to file a third complaint and also denied him leave to appeal in *forma pauperis* thereby effectively disposing of the appeal as well.

Special Meeting—Monday, June 14, 1965

at 12:30 P.M.

(Council Chamber—City Hall—Chicago, Illinois)

OFFICIAL RECORD.

CHICAGO'S OFFICIAL WELCOME TO GEMINI 4 ASTRONAUTS AND SCIENTISTS.

Call to Order.

On Monday, June 14, 1965 at approximately 12:30 P.M. (the day and hour appointed for the meeting), Honorable Richard J. Daley, Mayor, called the City Council to order.

Invocation.

Honorable Richard J. Daley, Mayor, then requested the members of the City Council and assembled guests to stand for the invocation by the Most Reverend Raymond P. Hillinger, D.D., Auxiliary Bishop of Chicago and Pastor of St. Mel Church.

Bishop Hillinger quoted briefly passages from scripture which emphasized the power and perfections of the works of God, of which the astronauts' successful flight was a manifestation. He concluded with a prayer for the success of future activities of the astronauts in the National Space Program.

National Anthem.

The Mayor thereupon requested the assembly to remain standing for the singing of the National Anthem by Mr. Louis C. Sudler, a member of the staff of the National Broadcasting Company.

Call for Meeting.

Honorable John C. Marcin, City Clerk, informed the City Council that the following call for the meeting was filed in the City Clerk's office on June 11, 1965:

OFFICE OF THE MAYOR
CITY OF CHICAGO

Honorable John C. Marcin,
City Clerk:

DEAR SIR—I, Richard J. Daley, Mayor, do hereby call a Special Meeting of the City Council of Chicago, to be held on Monday, June 14, 1965, at 12:30 P.M., in the Council Chamber on the Second Floor of the City Hall, for the purpose of taking suitable action in honor of Astronauts Major James McDivitt, Major Edward White and representatives of NASA.

Very truly yours,
(Signed) RICHARD J. DALEY,
Mayor.

Welcome Extended to Astronauts Major James A. McDivitt, Major Edward H. White and NASA Officials.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council, submitted the following proposed resolutions:

WHEREAS, An event for history, a magnificent flight into space participated in by two great United States Astronauts, Major James A. McDivitt and Major Edward H. White, has won for the United States Space Agency and the Astronauts world wide acclaim; and

WHEREAS, One of the Astronauts, Major James McDivitt, can be rightly claimed as a Chicagoan,

since he was born in Saint Mary of Nazareth Hospital and received his early education at Saint Mel Grade School and Lane Technical High School; and

WHEREAS, Chicago has been accorded great honor in being permitted to receive as guests Major McDivitt and his flight colleague, Major White, together with their families; now, therefore,

Be It Resolved, That the members of the City Council, in meeting assembled this ninth day of June, A.D. 1965, do hereby declare Monday, June 14, to be a day to honor Astronauts McDevitt and White, and the entire National Aeronautics and Space Administration Team and call upon the citizens of Chicago and all the people of Mid America, to join in the programs which will be arranged to pay tribute to these great men and women whose scientific knowledge coupled with the courage and skill of our astronauts, has advanced our space program to the eminent position it now has attained; and

Be It Further Resolved, That Monday, June 14, be declared to be Astronauts McDivitt and White Day in Chicago and that the United States Flag be flown on all public buildings, places of business and the homes of Chicago.

—

WHEREAS, Our City is greatly honored by the presence of Dr. George E. Mueller, Associate Administrator, and Charles W. Mathews, Project Manager for Project Gemini, National Aeronautics and Space Administration, who have accompanied to Chicago Majors McDivitt and White, who as pilot and co-pilot of a Gemini 4 space capsule became co-owners of every U. S. space record; and

WHEREAS, These gallant young men supported by our nation's greatest space scientists, engineers, technicians and workers who are engaged in the conquest of man's last frontier—outer space—have advanced the United States National Aeronautical and Space Administration program to unprecedented achievement; and

WHEREAS, These intrepid celestial navigators have thrilled all of the people of this nation and of the world by the new milestones they have reached in their fabulous 97 hour, 56 minute adventure during which Astronaut White took his epic walk in space while the space capsule was masterfully maneuvered by Astronaut McDivitt; and

WHEREAS, The magnificent accomplishment of the Astronauts has won the acclaim of the world, it must never be forgotten that the scientists and engineers have been equally as essential to the program as are the Astronauts. It is fitting that accompanying Astronauts McDivitt and White to Chicago are Dr. George E. Mueller and Charles Mathews, two of the leaders of the National Aeronautics and Space Administration; now, therefore,

Be It Resolved, That in the name of the people of this City, we as members of the City Council, extend to Dr. George E. Mueller and Charles W. Mathews and members of their families a most cordial welcome and do proudly proclaim them to be Honorary Citizens of the City of Chicago.

On motion of Alderman Keane (seconded by Alderman Bohling) each of the two foregoing proposed resolutions were *Adopted,* unanimously.

In making his motion Alderman Keane addressed the Council to express his pleasure at the honor bestowed upon the City of Chicago by the NASA officials for authorizing acceptance of the city's invitation to extend an official welcome to Astronauts McDivitt and White. He commended the astronauts for the example of humility and faith in Divine Guidance which they had given to the nation and to the world in their long-range and immediate preparation for the historical flight. He thanked the astronauts for the honor and prestige that had come to our country through the flight of the Gemini 4 and for honoring our city by their visit. He concluded by expressing a prayer and a hope that God will continue to fly with them and to bless all their future activities in the Space Program.

Alderman Bohling thereupon addressed the Council, expressing his pleasure in seconding the motion to adopt the resolutions commending the astronauts for the honor they had brought to our country. In his remarks Alderman Bohling stated that it was fitting for the astronauts to receive their official welcome in the "I Will" city, since it is their determination and dedicated efforts that had helped to put our country back into first position in the age of space.

HONORARY CITIZENSHIP CONFERRED ON ASTRONAUTS AND NASA OFFICIALS.

At this point in the proceedings Honorable Richard J. Daley, Mayor, conferred honorary citizenship medallions, with copies of engrossed resolutions, to Major James A. McDivitt, Jr. and Major Edward H. White of the United States Air Force, and to Dr. George E. Mueller, Associate Administrator for Manned Space Flight, NASA, and Mr. Charles W. Mathews, Project Manager, Gemini Program, NASA.

Major McDivitt as Flight Commander thereupon addressed the Council and assembled guests to thank the Mayor and the City of Chicago for the honor bestowed upon him and his associates in the Space Program. He asserted that the Gemini flight had made him and Major White feel very insignificant as they sped through space and looked down upon the vast lands and oceans spread before them. He also stated that because of his participation in the Space Program and the interest and support of the entire nation in the success of the program, he was proud to be an American, and he was accepting the medallion as a tribute to all members of the program and to the American people.

After a standing ovation to honor Major McDivitt, Honorable Richard J. Daley, Mayor, called upon Major Edward H. White to address the assembly.

Major White responded by expressing appreciation for the honors accorded him and his associates and stated that he had been greatly impressed by the warm welcome of all Chicagoans, noting that among the throngs there were people of all ages, races and colors who were united as Americans celebrating their joy in the success of the Gemini flight. He stated that he was especially gratified to notice so many young people because their generation should profit by the pioneering of today. He also expressed the hope that their enthusiasm would inspire the high ideals and desire for higher education so necessary for the success of the program. He agreed with Major McDivitt that the flight had made him humble and that he was well aware that it was the combined efforts of the

entire country that had made the successful flight possible.

Upon conclusion of his remarks the members of the Council and guests stood to applaud Major White.

REMARKS OF HONORABLE HUBERT H. HUMPHREY.

Honorable Richard J. Daley, Mayor, thereupon presented Vice President Hubert H. Humphrey, who was present to represent President Johnson and in his capacity as Chairman of the National Space Council.

Mr. Humphrey first remarked that he was touched by Alderman Keane's reference to the profound faith and sincere humility which the astronauts had shown throughout their flight and return to earth, realizing it was the combination of divine guidance, science, industry, the NASA staff and crew, as well as the backing of all loyal Americans that had made possible the successful flight of Gemini 4. He asserted that he was heartened to note the old-fashioned patriotism displayed by the thousands of Chicagoans who were on hand to celebrate with the astronauts their contribution to our country's advancement in space exploration, because patriotism is sorely needed in the disturbing times in which we live.

He concluded his remarks by addressing Mayor Daley with the words "Mr. Daley, no city in America could have done better than yours", and the assembly then rose in standing ovation to Mr. Humphrey and Mr. Daley.

COMMENTS OF NASA REPRESENTATIVES.

The Mayor interrupted the applause to request Dr. George E. Mueller and Mr. Charles W. Matthews to address the assembly. They expressed appreciation for the encouragement the members of the National Space Program had received through the tremendous ovation received from the people of Chicago. They mentioned other projects scheduled for the near future which will advance our country's knowledge of conditions in outer space—all with the ultimate goal that this advancement will produce a better life, not only for our own people but for all the people of the world.

GOVERNOR KERNER'S GREETINGS.

The Mayor thereupon called upon Governor Otto Kerner to address the assembly. After expressing his pleasure for the honor of being present to greet the astronauts and their party, Governor Kerner commented on the amazing contrasts in speed produced by engineers and scientists since 1914 when his father, as alderman, had urged a limitation on the speed of vehicles to 14 miles per hour. The speed of the Gemini 4 orbiting through space would have seemed incredible to the engineers of that time. He also remarked that at times people wonder if the amazing progress in aviation might be misused so as to destroy civilization as we know it, and he voiced the hope and prayer that on the contrary our country's pioneering in air space will greatly assist in helping the people of all nations, creeds and colors to live peaceably side by side.

He concluded with the words addressed to the astronauts that "it was only in Chicago that such a reception could have been given you".

PRESENTATION OF DISTINGUISHED GUESTS.

The Mayor thereupon introduced the following other members of the astronauts' party:

The wives: Mrs. James A. McDivitt
Mrs. Edward H. White
Mrs. George E. Mueller
Mrs. Charles W. Mathews
Mrs. Hubert H. Humphrey
Mrs. Richard J. Daley.

The parents: Mr. & Mrs. James A. McDivitt, Sr.
Major Gen. & Mrs. Edward H. White.

Each of the distinguished guests bowed acknowledgment of the applause that greeted their introduction.

Benediction.

The Rev. Archibald J. Carey, Jr. of Quinn Chapel, A.M.E., pronounced the benediction, quoting appropriate scriptural passages and concluding with a prayer for divine protection "for all who are in peril in the enterprise to open the treasures of heaven to all of the people of the earth".

Adjournment.

Thereupon the Council stood adjourned.

Chicago Park District Memorialized to Promote Federal Aid for Small Urban Parks.

The Committee on Finance submitted a report recommending that the City Council adopt the following proposed resolution transmitted therewith (referred to the committee on June 9, 1965):

WHEREAS, On June 7, 1965, United States Secretary of the Interior, Stewart L. Udall, announced a major shift in national policy, changing his department's principal park concern from national parks to neighborhood parks. He declared that federal aid through the Housing and Home Finance Agency would be made available for the recreational needs of large cities. Chicago is specially impoverished in the amount of recreational space it has, since Chicago has only 3.16 acres of park and recreational space for every 1,000 residents,

while the National Recreation Association has long recommended a standard of 10 acres per 1,000 persons. Most of the nation's largest cities do better in this regard than Chicago.

The construction of parks and the application for federal funds to develop them must be done through Chicago Park District, the governmental body charged with this obligation, now, therefore,

Be It Resolved by the City Council of the City of Chicago, That the City of Chicago respectfully memorializes the Chicago Park District to take immediate, energetic steps with the appropriate agencies of the federal government so that all the citizens of Chicago may derive prompt advantage from the newly announced federal policy, and, in cooperation with the Department of Development and Planning of the City of Chicago, establish sorely needed small parks throughout the city.

Types of Proposed Urban Renewal Action:

Acquisition and clearance of properties with redevelopment for integrated regional shopping center facilities;

public improvements of a unified design to support a regional shopping center and to enhance its compatibility with the surrounding neighborhoods;

a program to foster private rehabilitation of commercial properties consistent with the overall design objectives of the shopping center; and

the revitalization of a commercial district to form a modern regional shopping center to serve an estimated ultimate population of over 1,200,000 by providing for shoppers basic amenities, conveniences and attractions comparable to those in outlying shopping centers;

The commercial or shopping center shall: be served by the necessary roadways, streets, public transportation, parking and public utilities. This will be directed toward the removal of existing vehicular traffic and congestion from the main shopping streets—63rd Street and Halsted Street—in the heart of the area, and major separation of pedestrians from vehicles by replacing these vehicular trafficways with pedestrian malls;

by-pass through traffic around the center via efficient, pavement divided streets, thereby improving the general circulation pattern;

provide large-scale, integrated parking facilities encircling the business center in convenient proximity to stores;

protect adjoining residential neighborhoods from the present heavy influx of vehicles by provision of large-scale parking facilities within the business zone as well as improved circulation pattern;

eliminate non-conforming uses, blighted structures and other blighting influences from the shopping center;

improve public transit facilities through exclusive transit lanes and an improved "elevated" structure;

locate 63rd Street and Halsted Street to form a by-pass route more fully described and designated in the plans hereto attached and made a part hereof;

Streets, sidewalks, retaining walls, screening, malls, arcades and canopies, utility lines, and structures, street furniture—including lighting and signs, paving, planting and landscaping, etc., will conform to good design and will be coordinated in accordance with the objectives of the program.

Vehicular Traffic on 63rd Street, generally from Peoria Street to Union Avenue, and Halsted Street, generally from 62nd Street to 65th Street, will be limited to mass transit, franchised and emergency vehicles only.

The construction, reconstruction of streets, alleys, sidewalk, parking lots, service drives, circulation road or the relocation of the S. Halsted Street and W. 63rd Street by-pass is contingent upon the Department of Urban Renewal acquiring the property necessary for the construction of the local improvement aforesaid.

The widths of the circulation road, service drives, location of the parking lots, storm sewers, catch basins, manholes, lighting units, sodding, trees, shrubs, fence, landscape screenings, special excavation, removal of pavement, sidewalks, curbs and gutters and all materials to be used more fully described in the estimate of cost and the plans attached hereto and made a part hereof.

Construction work will be governed by plans and specifications which will be completed as to detail subsequently, indicating specific items of work and materials and methods of construction.

SPECIAL EXCAVATION

Special Excavation consists, in general, of the removal and satisfactory disposal of earth and structures from the site of the work. It also includes the placing of all suitable excavated or borrowed earth to make subgrade for the various pavements and other surfaces covered hereunder. Structures, as referred to above, include bituminous pavements on gravel or other graunlar bases, concrete or masonry walls and foundations, and all other existing structures of a similar nature.

Reference is made to attached Drawing 9, Typical Sections, and Drawings 21 through 25, Special Excavation and Pavement Removal, which indicate the character and extent of the general sub-classes of Special Excavation which will be encountered within the limits of work, covered hereunder. As indicated on the legend on Drawings 21 through 25, these types of Special Excavation are as follows:

1. *Special Excavation of rubble to full depth of basements*—This treatment will apply to those basements which fall entirely or in part within the limits of the circulation road and service drives as shown on Drawings 21 through 25. Under this sub-class of excavation, basement walls of demolished buildings will be removed to a depth not less than 2 feet below proposed grade of proposed pavements. Rubble, placed at the time of building demolition, will be removed from these basements to the full depth of the basement and basement floors will be broken up to eliminate water pockets over the area of said basements indicated on the aforementioned drawings. Further details of the extent of said removals within each basement area are as shown on Drawing 9, Finished Section, Circulation Road and Service Drives.
2. *Special Excavation of rubble in basements to 2 feet below proposed grade*—Where basements of demolished building are located within the limits of proposed parking lots, Special Excavation under this sub-class will include the removal of basement walls and rubble in those basements to a level not higher than 2 feet below proposed grade of the parking lots, as shown on Drawing 9, Finished Section, Parking Lots.
3. *Special Excavation of existing soft surfaces*—Existing soft surfaces (bituminous pavements on crushed stone or other non-Portland cement concrete bases, gravel, cinders and earth) will be removed as required to provide satisfactory subgrade for the circulation road, service drives, parking lots and sidewalks, and as required to establish suitable conditions for the proposed planting areas, as defined on the aforesaid drawings.

The Special Excavation work does not include the placement of materials in the basements to replace removed rubble nor does it include the placement of materials in median areas above subgrade between curbed pavements. These replacement items are described under "Porous Granular Embankment" and "Select Fill", respectively.

The subgrade will be compacted as required to provide maximum practical density for support of pavement and traffic loads as evidenced by standard accepted tests for this type of work.

SELECT FILL

Select Fill consists of suitable excavated or borrowed earth materials of such character so as to support vegetation. These materials will be placed in the areas designated for sodding and planting as shown on General Plans, Drawings 12 through 15. In general, Select Fill will be placed between curbed pavements and above subgrades formed under the item of Special Excavation.

The location of these deteriorated areas have been generally established by field inspection subject to detailed exploration during construction.

POROUS GRANULAR EMBANKMENT

Porous Granular Embankment consists of materials to be furnished, transported and placed within the basement areas of demolished buildings excavated under Special Excavation.

Porous Granular Embankment will be placed to the full depth of those basement areas falling entirely or in part within the limits of the circulation road and service drives, as shown on Drawings 21 through 25. The top of the Porous Granular Embankment will form the subgrade for said roadways as indicated on the detail of Finished Section, Circulation Road and Service Drives, Drawing 9.

Porous Granular Embankment will also be utilized to form subgrade material to a depth of 2 feet below proposed grade of parking lots, where the proposed parking lot pavements will entirely or in part be located over basement of demolished buildings, as covered under Special Excavation, as indicated on the detail of Finished Section, Parking Lots, Drawing 9.

Porous Granular Embankment will be uniformly graded coarse aggregate optionally made up of gravel, crushed gravel, pit run gravel, crushed stone or crushed slag.

The subgrade will be compacted as required to provide maximum practical density for support of pavement and traffic loads as evidenced by standard accepted tests for this type of work.

STANDARD CONCRETE CURB AND GUTTER

Standard Portland cement concrete curb and gutter will be installed adjacent to the pavements of the circulation road and at islands between service drives and parking lots. This curb and gutter will have the dimensions of 12″ of gutter width with variable curb height of between 3″ and 5″ and a normal height of 6″. Depth of the gutter section will be 10″. Concrete curb and gutter will be formed in place and constructed with contraction joints at 20 foot intervals. Concrete curb and gutter will be installed on 4″ subbase where located contiguous to the Circulation Road and on the proposed subgrade elsewhere.

DEPRESSED CONCRETE CURB AND GUTTER

Depressed Portland cement concrete curb and gutter will be used in conjunction with standard Portland cement concrete curb and gutter, covered above. It will be installed adjacent to the pavements of the circulation road at service drives and parking lot openings and along the boundary edge between service drives and parking lots where these are contiguous. The depressed curb will be 18″ in width with the depression located 12″ from the road edge of curb. Its depth will be 10″. Depressed concrete curb and gutter will be installed on 4″ subbase where located contiguous to the Circulation Road and on the proposed subgrade elsewhere.

Where utilized for new service drive base, pozzolanic base course will be 11″ in depth. Where utilized as base for new parking lot pavements, the pozzolanic base course will be 6″ in depth. 6″ pozzolanic base course will also be used as new base, replacing unsatisfactory pavement areas in existing parking lots, as indicated on Drawing 10, Typical Sections.

Pozzolanic base course will be composed of lime, fly ash, coarse aggregate and water mixed in a central plant and constructed on the subgrade formed under Special Excavation. Coarse aggregate will be slag, gravel or crushed stone. The ingredients and proportion of these materials shall be such that a pozzolanic strength test of test cylinders will result in each cylinder exhibiting an unconfined compressive stress of not less than 750 pounds per square inch.

A Pozzolanic base course, after installation and proper curing, shall be treated with a bituminous protective prime coat ready for installation of bituminous concrete surface course, discussed later.

Portland Cement Concrete Base Course Widening

Portland cement concrete base course will be used to widen existing streets for use as the circulation and main connecting roads and alleys for use as service drives in the locations shown on attached Drawings 26 through 30.

Portland cement concrete base course widening will be non-reinforced and will have a minimum compressive strength of not less than 3500 pounds per square inch and a minimum modulus of rupture of not less than 650 pounds per square inch at the age of 14 days. Portland cement concrete base course widening will be constructed without contraction or expansion joints. Where the base course widening will be installed in proposed circulation and main connecting roads, it will be placed on 4″ subbase, described later.

8″ Portland Cement Concrete Base Course

This item will be constructed as a base course for new pavements which will serve as the circulation road around the periphery of the project. Exceptions to the installation of Portland cement concrete base course in the circulation road occur at the following locations:

1. Along the present alignment of 62nd Street from approximately 75 feet east of Green Street to the alley between Peoria and Green Streets.

a. *Land Use Controls*

Development on land acquired and sold by the City of Chicago pursuant to this Urban Renewal Plan shall be subject to the following controls:

(1) *Residential*

(a) Low Density—a maximum density of 30 dwelling units per acre shall be permitted, to be provided in a variety of structure types including single family detached houses, row houses, atrium townhouses, or walk-up apartments, for sale and for rent for various income levels, to be developed within the particular limitations of each reuse site. Adequate parking and loading space shall be provided to serve in appropriate proportion the particular density and type of housing on each reuse site. As a minimum there shall be one parking space for every two efficiency units and three spaces for every four dwelling units with bedrooms. The number of spaces required plus the site location will determine the type and extent of screening and landscaping or the necessity of a parking structure.

(b) Medium Density — a maximum density of 80 dwelling units per acre will be permitted, except for one site for public housing for the elderly specified below. This will allow a wide range residential accommodations for rent or sale for various income levels, in all structure types permitted in low density areas and including elevator apartment structures. Parking and loading requirements shall be the same as for low density areas.

(c) Public Housing—two sites, one at Webster and Clark Streets, and one between Burling and Halsted Streets north of Dickens Avenue, are proposed for development by the Chicago Housing Authority for public housing for the elderly. A maximum density of 80 dwelling units per acre will be permitted on the Burling and Halsted site and a maximum of 100 dwelling units will be permitted on the Clark and Webster site. Two sites, one on North Avenue between Sedgwick and Hudson Streets, and one on Sedgwick Street north of Wisconsin Street, are proposed for development by the Chicago Housing Authority for public housing for families, both sites to be developed at a density not to exceed 30 dwelling units per acre.

(d) Mixed Residential—Business Development—Three sites, located on the northeast and northwest corners of North Avenue and North Park Avenue and on both sides of Lincoln Avenue north of Wisconsin Street, are specified for mixed residential—business development. Business uses shall be on the first floor only and shall be of a convenience nature, such as retail sales and services, professional services, studios, etc. The business uses at the Lincoln Avenue site shall be of a nature which would be an attraction to people using the adjoining plaza area. Residential density on the upper floors shall not exceed a maximum of 80 dwelling units per acre. Parking and loading facilities shall be adequate to satisfy all requirements for both residential and business development.

(e) Open Space for Adjoining Owners—To allow for adequate light and ventilation and off-street parking for a number of sound residential structures, there are reuse sites for sale to adjoining property owners for open space. These sites will be made available only if unanimous agreement to purchase each specific site is received from all affected proprety owners. If such unanimous agreement is not received these sites shall be sold as part of the adjacent disposal parcels.

(2) *Commercial*

(a) Retail Business—Sites for business shall be developed to provide a balanced distribution of necessary goods and services for the entire community, including varieties of retail sales and services, professional services, studios, and similar establishments. It is an objective of the Urban Renewal Plan to have these goods and services provided by establishments presently doing business in the community where this is both practically and legally possible. Parking and loading facilities shall be provided to adequately serve the particular uses on each site. As a minimum, there shall be one off-street parking space for each 1000 square feet of gross retail space, and one loading berth for the first 10,000 square feet of gross floor area plus one berth for each 20,000 square foot or fraction thereof floor area increment.

(b) Commercial Service—An area on the west side of Larrabee, between North Avenue and Eugenie, is proposed for redevelopment as a commercial service

area to provide those services necessary to a community but not usually included in retail shopping areas, such as automobile service facilities or animal hospitals. The development of this site shall be closely coordinated with the development of the neighborhood shopping center on the east side of Larrabee at North Avenue, in terms of structure type, parking and loading areas, signs, and landscape treatment. Parking and loading and design requirements shall be the same as those for business developments set forth above.

(c) Commercial Recreation—An area on the east side of Halsted Street between Armitage and Dickens is specified for redevelopment with commercial recreational facilities. The use or uses permitted shall be of a physical sport nature, complementing public recreational facilities available elsewhere in the community. Adequate off-street parking and loading spaces shall be provided in appropriate proportion to the intensity of the use.

(3) Private Institutional—A number of sites are specified for expansion and/or parking for private institutions such as churches and hospitals. Where new facilities are to be provided, these new facilities shall be adequately supported by off-street parking spaces on the following basis: for hospitals one parking space for each three hospital beds, plus one space for each three non-doctor employees, plus one space for each staff doctor; for churches one parking space for each 12 seats. The loading requirements for new institutional facilities shall be on the basis of one berth for 10,000 to 200,000 square feet of floor area, and one berth for each 200,000 squart foot or fraction thereof floor area increment.

b. *Design Objectives*

(1) *General*—Site layout and architectural implementation of each reuse area shall be carefully considered so that each development contributes positively to the architectural quality of the community and blends harmoniously with its surroundings. In securing these objectives the redeveloper shall thoroughly consider appropriate scale and proportion, sensitive selection of materials, functional form, pleasing interplay of spaces, and landscaping, screening and signs in a quantity and size appropriate to an urban community that is rich in architectural heritage.

(2) *Residential*

(a) General—Residential design objectives relate to several needs of a well-balanced community. Where interspersed with existing residential blocks, the new developments shall create a continuous harmony and visual continuity in terms of design, proportion, siting and landscaping. Variety and interest shall be provided by use of differing structure types and heights, construction materials, etc. Provision shall be made for adequate open space, including common green areas and/or tot lots where appropriate. Landscaping shall be carefully utilized to unify all elements of site design.

(b) Relocation Housing, Open Space for Adjoining Owners, or New Low Density Residential Sites—Located on the east side of Larrabee Street between Eugenie and Armitage, and on the north side of Dickens between Larrabee and Cleveland, are a number of reuse sites for relocation of sound existing residential structures, open space for adjoining owners, or low density residential development. If these sites are utilized for relocation of sound structures, care shall be taken in the siting and landscaping of such structures to provide a visual continuity with the adjacent developments. When utilized for new residential construction or open space, the requirements for these uses, established in the Urban Renewal Plan, shall apply.

(3) *Commercial* — Design objectives for commercial sites shall cover all elements of site planning and architectural development. The site plan shall clearly indicate an efficient use of space in relation of structure to traffic, to parking, to loading, and to green areas. The architecture, together with landscape treatment, street furniture, and pedestrian ways, shall provide a strong unifying character compatible with its environment. Signs and other graphic elements, in size and location, shall be provided with regard to the character of the facility and its location in the community.

(4) *Private Institutional* — The economy of urban land shall be a major objective in site layout and design of new institutional facilities and the expansion of existing facilities. The heavy requirements of off-street parking for institutions shall direct the consideration of parking structures and/or multi-use solutions. The predominatly residential character of the community requires that siting, design, proportion and landscaping be given careful consideration to provide a smooth transition from institu-

tional to residential uses. Properly developed institutional facilities shall provide beneficial landmarks within the community.

(5) *Parks and Playgrounds, Public Plazas and Pedestrian Greenways*

A neighborhood park is proposed for the area bounded by Webster, Larrabee, Dickens, and Burling. This park will include a balance of active and passive recreational facilities. In development of these facilities, full consideration shall be given to the needs of the community and the requirements of the adjacent school complex.

Sites are proposed for public playgrounds at Larrabee and Willow and at Wisconsin and Mohawk. Tot lots in each playground shall differ in design and character.

A system of pedestrian greenways is proposed to be developed along the north sides of Eugene, Wisconsin and Dickens Streets and on the east sides of Mohawk and Burling. These streets are presently heavily utilized by pedestrian traffic going to and from Lincoln Park and the various public and private community facilities located in the area. The proposed pedestrian greenways system, to be developed with an interesting textured paving treatment and attractive landscaping, is designed to follow and reinforce these natural pedestrian patterns and to positively tie the community to Lincoln Park. A number of public plazas are proposed to serve as community forums and focal points. These plazas will be developed with an interesting textured paving, attractive landscaping, and a wide variety of street furniture, including sculpture, fountains, and other such ornamentation where appropriate.

(6) *Reuse Sites Adjoining Pedestrian Greenways*

All reuse sites along any segment of the proposed pedestrian greenway system shall in design, siting and landscaping be tied positively to the pedestrian greenway treatment. The reuse sites on Larrabee at Wisconsin and at Eugenie shall be designed to accommodate the projected future extension of these pedestrian greenways to the west.

(7) *North Avenue Reuse Sites*

The landscaping for each reuse site located on the north side of North Avenue shall be in visual conformity for the entire length of the street.

(8) *Lincoln Avenue Reuse Sites*

The projected future change of Lincoln Avenue from a major vehicular artery to a local access street between Webster and Dickens shall be given full consideration in the development of reuse sites bordering Lincoln Avenue in this area.

The projected future vacation of Lincoln Avenue between Dickens and Armitage, including the extensive underground facilities which will restrict building over the vacated right-of-way, shall be given full consideration in the development of the reuse sites bordering Lincoln Avenue in this area.

(9) *Ogden Avenue Redevelopment*

Redevelopment of the Ogden Avenue area should provide a diversity of activities and visual experience with a continuity imparted by the direction of movement and the landscape treatment. The spirit of the diagonal axis of Ogden Avenue shall be retained but in modified form to create a better relationship with the neighborhood grid and to create new areas for redevelopment. Visual attention shall be reinforced on an important neighborhood institution and landmark—St. Michael's Church and its spire. The Academy of Sciences shall be brought into the Ogden Avenue composition and new institutions shall be designed to play important roles as focal elements. Meeting places for people shall be provided which physically reunite the community; places where people can mediate, converse and congregate away from vehicular traffic. These spaces will be designed with a scale and atmosphere appropriately urban and conducive to community activities.

The architectural design character to be achieved in the private redevelopment parcels created by the closing of Ogden Avenue shall be in keeping with the scale of both the existing neighborhoods and the new open spaces which shall be developed. Overall building forms should be simple and robust, yet express an urban residential scale. Achievement of the overall design objectives for Ogden Avenue shall be a primary consideration in the siting, landscaping and design of each reuse site. To ensure attainment of these objectives, and to provide a high quality of design within each reuse site, a close coordination on design elements shall be maintained between the redevelopers and the Department of Urban Renewal throughout the programming, planning and construction phases of development.

c. *Duration of Controls*

The controls listed above shall be in effect for 40 years from the date of approval of this Urban Renewal Plan by the Chicago City Council.

(1) That the structure cannot be economically rehabilitated to achieve compliance with the minimum codes of the City of Chicago.

(2) That vacant land in non-acquisition areas is not improved within a reasonable period in conformance with the objectives of the Urban Renewal Plan.

e. A number of properties in the clearance sections, indicated on Exhibit 3 as excluded from clearance, will not be acquired provided:

(1) That their uses are consistent with the proposed continued use or reuse of specific sections according to the Urban Renewal Plan.

(2) That the owners, their successors, or assigns, will convenant with the Department of Urban Renewal to observe all provisions of the plan.

2. *Rehabilitation and Conservation*

a. *Methods to be employed in achieving rehabilitation or conservation*

(1) The specific planning proposals contained in this Urban Renewal Plan will enhance the project area as a desirable, urban community and will encourage the physical rehabilitation of residential, business and institutional properties.

(2) A vigilant and continuous enforce- of the applicable laws, codes, ordinances, and regulations of the City of Chicago and State of Illinois will be in effect and in force within the Lincoln Park Project I area. These laws, codes, ordinances and regulations are as follows:

(a) Municipal Building Code
(b) Housing Code
(c) Plumbing Code
(d) Electrical Code
(e) Chicago Zoning Ordinance

(3) Structures which do not conform with the codes and ordinances listed above and are capable of being rehabilitated but whose owners are unable or unwilling to take such action; or properties which are in such condition that the correction thereof cannot be accomplished by the enforcement of the above regulations and codes, may be acquired. Such properties would be designated by amendment to the Urban Renewal plan.

Upon acquisition of such properties, the City will elect either to:

(a) Demolish the structure thereon and dispose of the land in accordance with the Urban Renewal Plan; or

(b) Sell the property to a private purchaser at its fair market value subject to its being rehabilitated to the extent necessary to bring it into conformance with all rehabilitation objectives established by the Urban Renewal Plan.

b. *Rehabilitation Objectives*

For all properties, the rehabilitation objectives shall not be less than the Federal Housing Administration Minimum Property Standards (as modified for this project) as a basis for mortgage insurance for rehabilitation under Section 220. The Property Rehabilitation Standards for Lincoln Park Project I shall include

(2) *Access to the Property*

Each property shall be provided with vehicular access to and from the property at all times by an abutting public or private street. Private streets shall be protected by a permanent easement.

In isolated cases, properties having no vehicular access but having permanent pedestrian access at least 5 ft. wide by easement or held in fee simple, may be acceptable, provided vehicular parking is permanently available nearby. Likewise, small groupings of properties not having direct vehicular access may be acceptable where there are convenient and permanently available parking bays. In either of these variations there must be judged to be continued market acceptance of the variation.

(3) *Access to Rear Yard*

Access to the rear yard from each living unit is recommended. However, such access is not acceptable where it is dependent upon passage through another living unit.

Each building shall be provided with access to the rear yard. This access for a detached dwelling shall be directly from a street, or other acceptable means.

(4) *Partial Non-Residential Use*

Any non-residential use of the property shall be subordinate to its residential use and character. Normally, for properties of one through four living units, the extent of this non-residential use shall not exceed 25 percent of the total floor area.

For one, two, or three story structures in properties not exceeding four living units, where the perecentage of total dwellings in the neighborhood having non-residential space included is small, and the use is considered harmonious and architecturally compatible, a higher percentage of non-residential space, (than provided in R205-1), may be permitted up to but not exceeding 50 percent of the total floor area.

For properties which include five or more living units, the maximum space devoted to non-residential use shall normally not exceed 20 percent of the gross floor area devoted to residential use, unless prior approval is received from FHA Central Office for more extensive non-residential use. The gross floor area includes corridors, stairs, elevators, lobbies, etc. Laundry, garage space for tenants up to a ratio of one space per living unit, all storage for the residential and commercial tenants, or project storage and other service space are not considered in area computations.

(5) *Open Space*

Every dwelling shall have yard space of such size and so planned as to permit access for maintenance, adequate light and ventilation of rooms and spaces, and reasonable privacy.

b. Semi-detached dwelling:
   (1) Interior lot coverage —85 percent
   (2) Corner lot coverage —90 percent
c. Row and end-row dwelling: 85 percent

The building area includes the total ground area of each building and accessory buildings but does not include the area of uncovered entrance platforms, terraces and steps.

(7) *Parking*

Where it is contemplated that there will be more than one living unit per dwelling in a majority of the houses, the parking and garage ratio shall be not less than .25 per living unit within the neighborhood. Street parking space may be included in this calculation only to the extent that it is not likely to be prohibited in the future by municipal authorities.

(8) Properties containing front and rear primary structures shall provide a minimum of 15 feet between such structures.

(9) *Minimum Room Sizes and Allowable Room Count*

Room sizes shown below shall be the minimum permitted for any subdividing of existing spaces or for the construction of any new rooms. Unremodeled existing rooms, where considered adequate in size and arrangement for the intended function by the local insuring office, shall be acceptable if not more than 10 percent smaller than the minimums given in the following schedule. Room count is applicable only for properties having five, and in some cases eight, or more living units under FHA multifamily housing programs.

3. *Redevelopers' Obligations*

Under these agreements, the redevelopers, their successors or assignees shall be required to observe all provisions of this Urban Renewal Plan and will further be required to submit a redevelopment progress schedule satisfactory to the Department of Urban Renewal. It is anticipated that redevelopers will not be permitted to defer the start of construction for a period longer than that required for the preparation of architectural plans and the clearance of such plans with the City of Chicago. Generally, this work should be completed within one year. The contract between the City of Chicago and the redevelopers will also contain provisions against land speculation by the redevelopers and provisions prohibiting them from executing any agreement or other instrument restricting the sale, lease, or occupancy of project land on the basis of race, creed, color or national origin.

Disposition documents will incorporate provisions for achieving development and design objectives in accordance with the Urban Renewal Plan and will spell out in detail the criteria to be met in order to achieve these objectives. Offers for parcels to be sold for redevelopment will be reviewed to determine their conformance with this Urban Renewal Plan and their compatibility with the project area. All criteria to be used in evaluating offers will be set forth in detail in the disposition documents.

4. *Proposed Underground Utility Distribution Lines*

No major installation of new underground utility distribution lines is proposed in the project area. Such lines as are installed will simply be necessary adaptions or adjustments to existing systems to accommodate new development and/or street pattern revisions.

In consideration of the mutual covenants, promises, and representations contained herein, the parties hereto do agree as follows:

SEC. 1. *Purpose of Contract.*—The Local Public Agency proposes to carry out a certain urban renewal project (herein called the "Project") in a certain area (herein called the "Urban Renewal Area"), in accordance with the Urban Renewal Plan therefor. The Project Temporary Loan together with the Project Definitive Loans shall be in an aggregate amount which, together with such other funds, if any, as are supplied for the purpose (not including any advances by the Local Public Agency to the Project), shall be sufficient, but not in excess of that necessary to enable the Local Public Agency to undertake, carry out, and finance the Project: *Provided, however,* That in no event shall the Project Temporary Loan, the aggregate of the Project Definitive Loans, or the aggregate of the Project Temporary Loan and Project Definitive Loans, outstanding at any one time, exceed Six million Five Hundred Seventy-Two Thousand Eight Hundred Eighteen Dollars ($6,572,818.00).

The redetermined rate shall not exceed 6 percent per annum, but otherwise shall be the higher of:

(i) The "going Federal rate" determined pursuant to the provisions of Title I of the Housing Act of 1949, as amended through September 2, 1964, and effective January 1 or July 1, as the case may be, following the expiration of the Initial Loan Period, or, in the case of subsequent redeterminations of the rate, the January 1 or July 1, as the case may be, constituting the fifth anniversary of the effective date of the latest redetermined rate; or

(ii) A rate per annum equal to the average yield to maturity on all outstanding obligations of the United States having a maturity from the May 1 or November 1, as the case may be, next preceding the date of the expiration of the Initial Loan Period (or, in the case of subsequent redeterminations of the rate, from the May 1 or November 1, next preceding the January 1 or July 1, as the case may be, constituting the fifth anniversary of the latest redetermined rate), of approximately 5 years, as determined by the Administrator, upon the advice of the Secretary of the Treasury, such average yield to be estimated on the basis of daily closing market bid quotations or prices for the month of May or November, as the case may be, next preceding the date of the expiration of the Initial Loan Period (or, in the case of subsequent redeterminations of the rate, for the month of May or November, as the case may be, next preceding the January 1 or July 1, constituting the fifth anniversary of the latest redetermined rate), and adjusted to the nearest ⅛ of 1 percent.

SEC. 4. *Project Definitive Loan Interest Rate.*—Each Project Definitive Loan shall bear interest at a rate (herein called the "Project Definitive Loan Interest Rate") which shall be the highest of:

(b) The rate of interest for project temporary loans under Title I as determined by the Administrator as being applicable to the 6-month period described in subsection (4) (a) above; or

(c) The maximum rate of interest which the Local Public Agency will be able to pay from the proceeds of the annual rents under the specific lease of project lands to which such specific definitive loan is related, which maximum rate shall be based on the assumption that such definitive loan (i) is in a principal amount equal to the capital value imputed to the project lands described in such lease, and (ii) is payable, as to both principal and interest, in substantially equal annual amounts in accord with the principles of level debt service over a period of 40 years from the date of such specific lease, and which rate shall be adjusted downward by at least ⅛ of 1 percent and not more than ¼ of 1 percent to a multiple of ⅛ of 1 percent.

Subject to the foregoing provisions of this Section, the Project Definitive Loan Obligations of each Series shall be in such form and denominations, of such description, payable as to principal and interest (together with the aforesaid premiums) at such time or times and at such place or places, additionally secured (as to payment of principal, interest, and premiums) in such manner, have such mandatory and optional provisions for their redemption, at a premium, prior to their maturity, and have such other characteristics, as shall be mutually satisfactory to the Government and the Local Public Agency: *Provided,* That the period within which the Project Definitive Loan Obligations of any

Series shall be payable shall not exceed 40 years from the date of the Project Definitive Loan Obligations of that Series: *Provided further,* That the term, "Project Definitive Loan Obligations", as used in this Contract, may include "Interim Certificates" which may be issued by the Local Public Agency pending its preparation, issuance, and delivery of the definitive bonds or other securities covering a Project Definitive Loan.

REPORTS AND COMMUNICATIONS FROM CITY OFFICERS.

Tribute Paid to Late Ambassador Adlai E. Stevenson.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, All Chicagoans, all of the people of Illinois, and all citizens of the free world, were deeply saddened by the passing of Ambassador Adlai E. Stevenson on July 14, 1965; and

WHEREAS, The life of this man, as a lawyer, as a politician, as Governor of Illinois, as a presidential candidate, as United States Ambassador to the United Nations, and as a beloved and respected human being, is an inimitable example of selfless devotion to the ideals of a great society; and

WHEREAS, His was the responsibility which could greatly influence the fate of nations, yet he never lost his deep concern in the every-day matters affecting the lives of people. He had a genuine warmth and his kindness and generosity came spontaneously; and

WHEREAS, Adlai Stevenson's roots were deep in Illinois, and his love for the Prairie State was fully repaid by the esteem of its people; and

WHEREAS, Though he held cabinet ranking in the national administration as the United States Representative to the United Nations, he most preferred to be addressed as "Governor," which was the title he held as head of the government of Illinois after his election in 1948; and

WHEREAS, He accepted public office as an opportunity to reflect the dedication and integrity that must be an intrinsic quality of our political life and his influence and leadership were so outstanding that he gave new meaning and dignity to government and politics; and

WHEREAS, He was recognized, not only as a statesman of international stature, but as a world-wide figure who was trusted and beloved by people everywhere. No man had a greater influence for good in world affairs; and

WHEREAS, Illinois and Chicago have given many great men to the nation and to the world, but in our time none greater than Adlai Stevenson; now, therefore,

Be It Resolved, That the Mayor, the City Council, and the people of Chicago join in paying tribute to one of the truly great men of our time; a man whose life was dedicated to public service, and who left to us all a richer and more rewarding life. We recognize our own sense of bereavement and the great loss to all society and extend to his family our deepest sympathy.

Alderman Murray moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Murray said proposed resolution was *Adopted,* unanimously, by a rising vote.

Alderman Murray and Aldermen Marzullo, Fitzpatrick, Wigoda, Rosenberg, Metcalfe, Chew, Danaher, O'Rourke, Sperling and Despres addressed the Council, eulogizing the splendid character and pleasing personality of the late Ambassador, who preferred to be called "Governor". Some of the speakers, who had served in the General Assembly during Mr. Stevenson's tenure as Governor, recalled with admiration the highly intelligent, well educated, idealistic Administrator who at that time and until the day of his death devoted his talents, energies and prestige to the people of his State, the nation and ultimately to the world. Others of the Aldermen in their seconding speeches spoke with pride of their good fortune in knowing Mr. Stevenson either through personal or political contacts, and they expressed appreciation for the example of integrity, wisdom, wit, courage and devotion to the welfare of people of all races and creeds which he had given, not only to them but to political leaders of all times. They noted with satisfaction that as he entered the national and interna-

tional arena he had never lost the ideals which had inspired his career on the local scene. They foretold that historians will record his life and record as one of the greatest Americans of our time. They extended sincere sympathy to the bereaved family for the loss of a devoted father and to the nation for the loss of a distinguished and courageous statesman.

Honorable Richard J. Daley, Mayor, thereupon addressed the Council to pay tribute not only to an outstanding statesman but to an honored personal friend, whose ideals and personal integrity were reflected in the dedication which motivated his entire political career. He recalled Mr. Stevenson's faculty for expressing the most profound thoughts concisely and humorously, thereby leaving a lasting impression on his listeners. The Mayor stated that the legacy which Mr. Stevenson had left to his country and to the world was the humanitarianism which had been influenced by his personal ambition "to be an instrument of peace". He further stated that these high personal and political aspirations had been recognized and extolled by world leaders whom he had met as a member of the honorary escort which accompanied the bereaved family from London. He concluded by expressing the hope that all political leaders would be guided by the heritage they had received from Mr. Stevenson of dedicated service in the interest of peace and the welfare of all people of all lands of whatever creed or color.

Honorable Richard J. Daley, Mayor, thereupon introduced to the Council Mr. Adlai E. Stevenson III and wife Nancy who were warmly received by the City Council.

Tribute Paid to Late Judge James J. McDermott.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, God in his infinite wisdom has called to his eternal reward, a renowned jurist and friend to all of Chicago, the Honorable James J. McDermott, Judge of the Circuit Court of Cook County, on August 19, 1965; and

WHEREAS, Judge McDermott, since his election to the Superior Court of Cook County in 1947, had built an enviable reputation as a jurist. He served successively as Chief Justice of the Criminal Court, head of the Law Division of the Superior Court, Chief Justice of the Superior Court, and finally, under court reform, as Judge of the Circuit Court. To his work in each of these capacities he brought a fine legal mind, a serious capacity for work, a deep-rooted desire to serve, a personality particularly suited. He was highly regarded by bench and bar, admired by his associates, loved by his multitude of friends.

Prior to his assuming his position on the bench "Jim" McDermott was a member of the City Council, representing the Fourteenth Ward where he also served as Ward Committeeman, and in both of these offices and as a member of the Board of Appeals of Cook County he won recognition for his outstanding service. His loss, both public and personal, is keenly felt; now, therefore,

Be It Resolved, That the Mayor and the City Council of the City of Chicago, by this Resolution spread upon the record of the Proceedings of the City Council, express their sense of loss on the death of Judge James J. McDermott, friend and former colleague, and express to the bereaved members of his family their sincere sympathy.

Alderman J. P. Burke moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

Alderman J. P. Burke, on his motion to adopt, and Aldermen Sperling, Danaher, Healy, Sain, Tourek and Krska in their seconding motions, addressed the Council to express their personal shock and sense of loss at the passing of the late Judge. They paid tribute to him as a person devoted to his family and friends, generous with his time and legal experience to the needy, and dedicated to the interests and welfare of his fellow man, especially to residents of the south and southwest sides of the city. They recalled his leadership in all activities in which he engaged—an aggressive, successful trial attorney, an active and articulate member of the City Council, a member of the Board of Appeals, a leader of the Democrat Party, and finally a distinguished Judge. Some of the aldermen asserted that he was not only a friend to his own constituents but was equally known and loved in areas far removed from the 14th Ward. Each of them stated that the late Judge's long record of service, his warm and loyal friendships, and his generosity to the needy and friendless would always be a source of inspiration to them. They extended their personal sympathy and the condolences of their constituents to the bereaved family.

Honorable Richard J. Daley, Mayor, thereupon concluded the eulogies by paying tribute to the late Judge McDermott as a man of the people who devoted his great talents to the benefit of his fellow men, and as

an outstanding representative of his Irish-American ancestors and of the "Back O' the Yards" area, which has contributed effectively to the progress of the city. He expressed his sorrow at the loss of a personal friend and extended condolences to the bereaved family.

Sergeant Eichorst served his country as a Sergeant in the Army Air Force between March 5, 1941 and August 25, 1945. On December 16, 1947, Sergeant Eichorst joined the Chicago Police Department. During his police career, he received four Honorable Mentions as well as numerous letters of commendation from citizens. On August 20, 1965, he was awarded posthumously the Superintendent's Award of Valor, the most cherished award of the Chicago Police Department.

WHEREAS, Not only on August 4, 1965, but throughout his distinguished eighteen years on the Chicago Police Department, Sergeant Eichorst has shown a professional devotion and dedication in upholding the welfare of the community far above the usual call of duty.

WHEREAS, Sergeant Eichorst is survived by his widow Jean, an eight-year-old son, Charles Jr., a six-year-old daughter, Jill, and his widowed mother, Florence. His personal loss to them, as well as his loss to the community he served so well, is keenly felt; now, therefore,

Hazel Street. (The Appellate Court's reversal was based on its finding that the Circuit Court in holding the R-1 Zoning of said property had granted the plaintiff a use of the property less restrictive than that warranted by the pleadings and the proof. The trial court's judgment imposed on the subject property a general R-7 General Residence District classification and that it had no legal basis to substitute its judgment for that of the City Council.)

Bethlehem Steel Company, Plaintiff-Appellant vs. City of Chicago, Defendant-Appellee, United States Court of Appeals, Seventh Circuit No. 14887. On August 27, 1965, the United States Court of Appeals filed an opinion affirming the judgment of the United States District Court for the Northern District of Illinois, Eastern Division in the above-entitled cause. (The Court of Appeals denied recovery to Bethlehem Steel Company of money deducted from contract price to supply and erect steel for a portion of the South Route Superhighway under a liquidated damages provision that the city could deduct from the contract price an amount for each day the contract job was not completed after completion date called for; in addition, the Court refused to allow the Bethlehem Steel Company recovery of an additional sum of money which the city refused to pay until the Steel Company tendered a contract payment voucher, final estimate, etc. to the city as required by contract.)

The above elevations as fixed shall be measured from Chicago City datum as established by the City Council of the City of Chicago.

The roadway(s) of the several street(s) heretofore specified between the points herein described, also the roadway(s) of all intersecting alley(s) extended from the curb line to the street line on each side of said specified street(s) between the points herein described, after removal of trees therefrom shall be so graded by cutting for filling and compacted by rolling with a roller of ten (10) tons weight that after the grading of the roadbed(s) is completed and the pavement herein described placed thereon, the surface of the finished pavement at the center of the roadway of each of said specified street(s) shall be at the elevation of the top of the curbing herein described; and the surface of the said finished pavement at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and at the catchbasin inlets in the gutters adjoining the roadway face of the curbing shall be nine (9) inches below the top of said curbing. The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets.

A transverse section of the surface of the finished pavement and gutters shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadway at every part of the roadway of each of said specified street(s) between the points herein described.

In all intersecting alley(s) herein specified at the street line(s) of said specified street(s) the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing, and the surface of the finished pavement at the center of the roadway(s) of said alley(s) shall be three (3) inches below the top of the curbing; and a transverse section of the surface of the finished pavement at the street line(s) of said specified street(s) shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadway(s). The surface of the said pavement thence shall slope gradually to meet the surface of the finished pavement at the curb lines of said specified street(s).

On the sub-grade as formed and compacted shall be spread an insulation course of limestone screenings. Said insulation course shall be one (1) inch in thickness and shall extend across the full width of the roadbed.

On the insulation course as formed and compacted shall be spread a foundation course consisting of a layer of crushed limestone of the best quality broken so as to pass through a ring of four (4) inches internal diameter and held on a ring of two (2) inches internal diameter. The stone spread shall be well graded as to sizes. It shall be evenly distributed so as to leave no pockets filled with the small size stone. This layer shall be thoroughly rolled with a self propelled three wheel roller, weighing not less than ten (10) tons. The rolling shall begin at the edge of the pavement and the roller shall move parallel with the center line of the roadway. The roller shall progress gradually towards the center of the roadway, uniformly lapping each proceeding track, covering the entire surface with the rear wheels and continuing until the stone does not creep or move head of the roller. After the crushed limestone has been thoroughly rolled and keyed, limestone screenings shall be applied gradually over the surface and the rolling continued until sufficient screenings have been applied to completely fill the interstices.

The screenings shall be swept in with hand brooms to properly fill the voids. The spreading and rolling shall continue until no more screenings will go in dry. No excess of screenings shall be used before applying water. Immediately after the voids have been filled with screenings, the macadam shall be sprinkled until saturated, the sprinkler being followed by a roller. More screenings shall be added if necessary. The sprinkling, sweeping and rolling shall continue until a grout shall be formed of the screening and water that will fill all voids, and form a wave of grout before the wheels of the roller. The quantity of screenings and water necessary to fill the voids shall be determined by the engineer and shall be sufficient to produce a rough, granular surface. The rolling, at all times, shall begin at the sides, and then progress toward the center, thoroughly covering the entire surface with the rear wheels. When compacted, this layer shall measure not less than five (5) inches in thickness.

Upon the finished waterbound macadam base there shall be uniformly applied by an approved type of spreader box, two (2) inch stone to a depth providing a total base course thickness of three (3) inches after final compaction. After shaping to grade and rolling with a ten (10) ton roller three-quarter (¾) inch stone chips shall be broadcast and broomed into the surface voids at the rate of fifteen (15) pounds per square yard.

Liquid asphalt at a temperature of 140 degrees F. shall be uniformly applied by a pressure distributor at a rate of one and one-half (1½) per gallons per square yard. Stone chips shall again be broadcast and broomed uniformly over the surface at the rate of fifteen (15) pounds per square yard. Liquid asphalt shall be uniformly applied by a pressure distributor at the rate of one-half (½) gallon per square yard. Stone chips shall be broadcast again at the rate of ten (10) pounds per square yard. The surface shall then be thoroughly rolled. The asphalt shall conform to the State Specification for Emulsified Asphalt R.S. 1 and R.S. 2, Page 640 of Illinois Standard Specifications for Road and Bridge Construction, adopted January 2, 1952.

On the said foundation course shall be placed an asphaltic concrete surface course two (2) inches in thickness consisting of an asphaltic concrete mixture conforming to the standard requirements of the Illinois State Division of Highways for Type 1-11 Asphaltic Concrete adopted January 2, 1952, as follows: the Asphaltic mix shall consist of a mineral aggregate bonded with the asphaltic cement. The mineral aggregate shall consist of the best quality of crushed gravel or crushed stone in sizes graduated in accordance with the following table, viz:

Asphaltic Concrete Surface Courses, Fine Dense Graded Aggregate Type

Passing ½ in sieve	95-100%
Passing ½ inch, retained on No. 4 sieve	45- 65%
Passing No. 4 retained on No. 10 sieve	10- 30%
Passing No. 10 retained on No. 40 sieve	5- 18%
Nassing No. 40 retained on No. 50 sieve	7- 22%
Passing No. 80 retained on No. 200 sieve	5- 13%
Passing No. 200 sieve	4- 8%
Bitumen	5- 7%

(Table 45. 11p. 247 State Specifications)

The asphaltic cement shall conform with the standard requirements of the Illinois State Division of Highways for Grade P.A. 6, Paving Asphalt, adopted January 2, 1952. It shall have a flash point (Cleveland open cup) 500 plus Fahrenheit. It shall have penetration at seventy-seven (77) degrees Fahrenheit of seventy-five (75) to eighty-five (85), and at least ninety-nine and five-tenths (99.5) per cent of bitumen shall be soluble in carbon disulphide.

When fifty (50) grams of said paving asphalt is heated in an uncovered tin box five and one-half (5½) centimeters in diameter and three and one-half (3½) centimeters in depth, and is held at a temperature of three hundred and twenty-five (325) degrees Fahrenheit for five (5) hours, then it shall have lost not over two (2) per cent by weight and the penetration of the residue thus obtained shall not be less than seventy (70) per cent of the penetration before such heating, said penetration being determined as herein described. Said paving asphalt shall have a ductility of not less than one hundred (100) centimeters being determined by elongating a briquette Dow form of said paving asphalt at uniform rate of five (5) centimeters per minute at a temperature of seventy-seven (77) degrees Fahrenheit.

The paving asphalt and mineral aggregate shall be mixed when heated between three hundred (300) and three hundred fifty (350) degrees Fahrenheit in an approved mixer to produce a homogenous mixture in which all particles of aggregate are coated uniformly. The heated mixture shall be delivered to the pavement in trucks with approved clean tight dump bodies. The temperature when delivered at the street shall be between two hundred fifty (250) and three hundred fifty (350) degrees Fahrenheit. Upon arrival the asphaltic mixture shall be spread upon the prepared base at a uniform depth and consistency so that the thickness when compacted as herein described will be two (2) inches. Immediately after the asphalt surface course shall be spread it shall be connected thoroughly and uniformly with a three (3) wheel roller or a tandem roller. The asphalt paving mix shall be dumped first upon approved steel dump pans outside of the area on which it is to be spread. Immediately thereafter it shall be distributed into place with shovels and spread with rakes in layers of uniform density and correct depth, unless a spreading machine is used. If a spreading machine is used it shall be of a type approved by the Board of Local Improvements. Immediately after the surface course mixture is placed it shall be compacted thoroughly and uniformly with a three-wheel roller or a tandem roller. One (1) or more three-wheel rollers and one (1) or more tandem rollers will be required. The actual number of such rollers to be determined by the Engineer in accordance with the progress of the work. If the production of the asphalt plant delivered to the pavement exceeds seventy-five (75) tons per hour additional rollers shall be furnished as directed by said Engineer. After a final rolling the asphalt surface course shall at all points have a density of not less than ninety-five (95) per cent of the maximum possible density of a voidless pavement composed of the same materials in like proportions.

Concrete crosswalks shall be built at intersection only. Concrete crosswalks shall be built according to the Standard City Code of the City of Chicago.

The concrete shall conform to Class X Concrete (as described in this ordinance for curbs and gutters).

All existing catchbasins which are to be abandoned are located at the intersections of streets. Where existing catchbasins are to be abandoned, the outlet pipe connection from the catchbasin to the sewer shall be plugged and properly sealed and the corbel courses broken down and the catchbasin cleaned and filled with suitable material.

Tree removal where necessary.

Said work is to be done in a workmanlike manner under the superintendence of the Board of Local Improvements of said City of Chicago.

Section 2. That the recommendation of the Board of Local Improvements of the City of Chicago, providing for said improvement, together with the estimate of the cost hereof, including the lawful expenses attending the same, made by the engineer of said Board both hereto attached, be and the same are hereby approved.

Section 3. D. 1897, and the amendments thereto, and that of said special assessment the sum of Ten Thousand Four Hundred Forty-Six and No One-Hundredths Dollars ($10,446.00), not exceeding five (5) per centum of the amount of said assessment as finally determined after the completion of said improvement in accordance with Article 9-2 of said Act, shall be

applied toward the payment of the cost of making, levying and collecting said special assessment, and of letting and executing contracts, advertising, clerical hire, engineering and inspection, court costs and deficiency in interest in the matter of said special assessment, in accordance with the provisions of said Act.

Section 4. That the aggregate amount herein ordered to be assessed against the property, and also the assessment on each lot and parcel of land therein assessed shall be divided into five (5) installments in the manner provided by the statute in such cases made and provided, and each of said installments shall bear interest at the rate of five (5) per centum per annum according to law until paid.

Section 5. That for the purpose of anticipating the collection of the second and succeeding installments of said assessment for said improvement (excepting such part, if any, that is chargeable to the City of Chicago for public benefits to public lands), bonds shall be issued payable out of said installments bearing interest at the rate of five (5) per centum per annum, payable annually, and signed by the Mayor and by the President of the Board of Local Improvements, countersigned by the City Comptroller and attested by the City Clerk under the corporate seal of the City of Chicago. Said bonds shall be issued in accordance with and shall in all respects conform to the provision of the Act of the General Assembly of the State of Illinois, entitled "An Act Concerning Local Improvements", approved June 14, A. D. 1897, and the amendments thereto.

Section 6. That the Corporation Counsel be and he is hereby directed to file a petition in the Circuit Court of Cook County, Illinois, in the name of the City of Chicago, praying that steps may be taken to levy a special assessment for said improvement in accordance with the provisions of this ordinance and in the manner prescribed by law.

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That the Mayor, on behalf of the City of Chicago is authorized to execute and the City Clerk to attest, upon approval of the Commissioner of Public Works and the Corporation Counsel as to form and legality, an Agreement between the City of Chicago, the County of Cook and the State of Illinois, providing for participation in a General Transportation Study for the Chicago Metropolitan area, said agreement to be in substantially the following form:

MEMORANDUM OF AGREEMENT

Memorandum of Agreement made this ..... day of ....., A.D. 19....., by and between the City of Chicago, Cook County, Illinois, a Municipal Corporation, hereinafter called the City, the County of Cook, a Public Body Corporate, hereinafter called County, and the State of Illinois, acting by and through its Department of Public Works and Buildings, hereinafter called the State.

Witnesseth:

Whereas, in the Chicago Metropolitan Area the mass transportation and vehicle traffic congestion are continuing problems, and

Whereas, the financial burden of relieving traffic congestion rests upon the City, the County, and the State, as well as upon the Federal Government, and

Whereas, the Federal Government assists in the financial burden of relieving traffic congestion through its Federal-Aid Highway Programs, and

Whereas, the determination of a solution of these transportation and traffic congestion problems often times is the subject of separate and isolated considerations involving the construction of expressways, toll roads, railroad grade separations and other mass transportation facilities, and

Whereas, comprehensive transportation plans must be developed and tested for each of the alternate land use plans, and

Whereas, under an agreement between the City, County and State, dated January 26, 1955, A.D., an integrated study by the Chicago Area Transportation Study was made of all transportation facilities in the Chicago Metropolitan Area; a considerable inventory of data was accumulated; workable theories and methods in relation to solution of mass transportation facilities were evolved, and a three volume report was compiled and published with a correlated transit plan;

Now, Therefore, in consideration of the premises and the mutual undertakings of the parties hereto, and in conformity with all applicable laws it is agreed:

1. Intent and Understanding. It is the intent of the agencies that sponsor the Chicago Area Transportation Study that the Transportation Planning Function of the Chicago Area Transportation Study be carried on, on a continuing basis in accordance with the Federal-Aid Highway Act of 1962 pertaining to Urban Transportation Planning (Section 134, Chapter 1, Title 23, U.S. Code). The objective of the Study will be to update its data bank; provide technical advice in the solution of planning and transportation problems; conduct traffic surveys; research problems of planning and transportation; collect and review data relating to all factors affecting judicious planning; construction, maintenance and operation of all types of transportation facilities; review and evaluate transportation plans in the light of new developments in the field of Transportation Planning, new technological developments, changes in the projections of land use and metropolitan growth or as affected by alternate policy goals and plans; and to recommend changes in the transportation plans.

It is further understood that the Chicago Area Transportation Study will confine its planning function to the original cordon area comprised of 1236 square miles centered on Chicago "Loop"; however, its services will be available on a contractual cost basis for the metropolitan region.

2. It is understood that the Chicago Area Transportation Study will serve as the principal staff agency for implementing the requirements of the Federal-Aid Highway Act of 1962 (Section 134, Chapter 1, Title 23, U.S. Code) in the Cook, Du Page and Will County portion of the Chicago-Northwestern Indiana urbanized area. The means for providing the over-all policy direction and supervision as well as technical advice for the planning process is contained in the booklet entitled "Cooperative Effort Toward a Comprehensive Transportation Plan Kept Current by Continuing Review" which is made part of this Agreement.

COMMITTEE ON PLANNING AND HOUSING.

REPORT AS TO STATUS OF PENDING PROPOSED RESOLUTION CONCERNING DISCOURAGEMENT OF FURTHER HIGH-RISE PROJECTS AND FOR DEVELOPMENT OF SCATTERED SMALL PROJECTS FOR LOW-INCOME HOUSING.

The Committee on Planning and Housing submitted the following report, which was ordered *Placed on File:*

CHICAGO, September 1, 1965.

To the President and Members of the City Council:

In response to a written request from the Alderman of the 5th Ward for a report, under Rule 45 of the Rules of Order of the City Council, on a proposed resolution (referred to the Committee on Planning and Housing on April 21, 1965) to adopt an active policy of discouraging further high-rise projects and developing scattered small projects for low-income housing for families throughout the City, etc., I wish to report that conversations with persons experienced in the field of public housing lead one to the conclusion that the Chicago Housing Authority is doing everything within its power to gear policies in the directions they will improve public housing projects in general and also the lot of tenants of such projects.

In view of the fact that the Chcago Housing Authority apparently is doing as well as, if not better than, any like agency in any city in the country; and is concerned in attainment of the ends referred to therein; and should not be hampered or discouraged in the wonderful work it is doing; it has been my belief that said resolution should be retained before the Committee for further study.

Respectfully submitted,

(Signed) ARTHUR V. ZELEZINSKI,

Chairman.

Respectfully submitted,

(Signed) ARTHUR V. ZELEZINSKI,

Chairman.

I am visiting the United States of America to learn more about the people of America. I admire America and its institutions and will try to adopt the same system in Italy.

Chicago is the first city on my visit. This city is beyond the imagination of the Italian people. It is more constructive and operated better than we can imagine. I am learning more about America as I travel.

I admire the great hospitality of the citizens of Chicago which I have experienced for the three days I have been visiting here.

Although the people of Chicago and the people of Naples are far apart, they have this in common: The hospitality of the people of both cities.

I am hoping my visit will create a better friendship and relationship between the people of Naples and Chicago and the entire population of the United States.

Presence of His Excellency Adolfo Lopez Mateos at Meeting.

By unanimous consent Honorable Richard J. Daley,

Mayor, requested the Clerk to read the following proclamation:

Period of September 15-18, 1965 Designated as "Mexican Days in Chicago".

WHEREAS, It was on the 15th of September in 1810 that Father Miguel Hidalgo y Costilla gave the original "grito" or freedom cry as he stood on a balcony of the city hall in the town of Dolores, Guanajuato, and called upon the townsfolk to rise up against their oppressors, thus setting off with his stirring words the revolution which ended with Mexican independence; and

WHEREAS, The members of the ever-growing Mexican community in Chicago have brought with them from Mexico the traditional custom of celebrating September 15 as the biggest national holiday of the year and have inculcated in their youth the national pride in the traditions of their mother country, Mexico; and

WHEREAS, In Chicago for years the Mexican Patriotic Committee, in conjunction with the Mexican Consulate General, has preserved the custom of celebrating these great days which mark the attainment of Mexico's independence; and

WHEREAS, As traditionally, the Mexican Patriotic Committee, the Mexican Consulate General, now in association with the United Mexican Societies of the Chicago area and other organizations, have arranged a series of programs, dances and parades to commemorate Mexico's independence and to join Chicago with the other cities of the United States where this great historical occasion is celebrated; and

WHEREAS, Chicago is being honored in having in attendance to participate in the ceremonies and programs arranged in celebration of the 155th Anniversary of the Independence of Mexico, one of the world's most distinguished public officials, His Excellency Adolfo Lopez Mateos, former President of the Republic of Mexico;

Now, Therefore, I, Richard J. Daley, Mayor of the City of Chicago, do hereby proclaim September 15 through 18 as Mexican Days in Chicago, and urge the people of Chicago to attend the spectacular and colorful parade on State Street on Saturday, September 18, and to be in attendance at the patriotic program to be held in Grant Park on Wednesday, September 15, and join the other programs which will add to the gaiety of Mexico Days.

The Mayor thereupon addressed the Council stating that he felt highly privileged to present to them His Excellency Adolfo Lopez Mateos, one of the world's most distinguished statesmen, who as former President of the Republic of Mexico had nobly served not only the people of his country but of the western hemisphere through his leadership in better education, improved housing, and in all matters involving the interests and welfare of all people.

After a standing ovation, His Excellency addressed the Council in Spanish, translated by an interpreter, to thank the Mayor and members of the City Council for the warm welcome extended to him as representative of the President of Mexico, recalling that in 1959 honorary citizenship of the City of Chicago had been conferred on him. He expressed his pride in the people of Mexico who had become citizens or residents of Chicago because by their participation in the professions, commerce and industry they had brought with them the same courage and interest in the welfare of all people that had inspired their ancestors' bid for freedom one hundred fifty-five years ago. He concluded by thanking the Mayor and Aldermen for the honor they had bestowed upon his country in recognizing this important date in Mexican history.

As his Excellency and his party retired from the Council Chamber they were warmly applauded by the members of the City Council and visitors at the meeting.

On motion of Alderman Zelezinski (seconded by Aldermen Murray and Hoellen) said proposed resolution was *Adopted* unanimously.

In making their motions Aldermen Zelezinski, Murray and Hoellen expressed regret on behalf of themselves and the people of the city for the loss which the City had sustained in the retirement of Mr. Ziegele. They stated that his service was outstanding not only for the experience and dedication which he applied to his endeavors but by the kindness and courtesy which marked his relations not only with the Aldermen and Department Heads but with his associates and the many applicants who desired zoning changes or other proposals. In all cases his first interest was the over-all good of the City, but in cases where he made adverse recommendations, the applicants felt the decisions to be fair and in the best interests of the city. They expressed their best wishes for a long and happy retirement.

The Mayor thereupon stated that he desired to add his personal commendation of Mr. Ziegele for the fine example he had given of a dedicated public servant, who had taken great satisfaction in contributing his experience and skill to the best interests of the city. He further stated that Mr. Ziegele represented many other devoted employes of the city whose work was little noticed or appreciated. He expressed the hope that Mr. Ziegele's example would inspire young people to devote their talents and efforts to the service of our city. He concluded by wishing Mr. Ziegele health and happiness in long years of retirement.

Allan Petrulis, Lawrence Mastre and William Gutt Commended for Heroic Attempt to Save Three Boys from Drowning.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council, presented the following proposed resolution:

WHEREAS, On Sunday afternoon, September 5, 1965 three Chicago boys on the shore of Lake Michigan noticed a boat overturned in the lake off 28th street, and with spontaneous selflessness plunged into the choppy waters and swam to the aid of the occupants of the boat two hundred yards off shore; and

WHEREAS, Three of the boat's occupants had already disappeared in the water but the body of the fourth occupant was recovered and towed to shore by the boys; and

WHEREAS, In deeds such as this one finds proof of the true brotherhood of man, evidenced by acts of quiet heroism which earn the admiration and gratitude of people everywhere; now, therefore,

Be It Resolved, That the Mayor and the City Council of the City of Chicago, on behalf of the people of Chicago, hereby express to Allan Petrulis, Lawrence Mastre and William Gutt their admiration, respect and gratitude for their heroic act in rushing to the aid of strangers in danger even at the risk of their own lives, and their deep realization of the implications of their action.

On his motion to adopt Alderman Danaher stated that he was proud of the three young men whose heroic attempt to rescue the unfortunate boys was being officially recognized, particularly since they are residents of his ward. He asserted that their attempt had demonstrated to the people of Chicago that in spite of the criticism of many youths of this generation, there are many in whom we can be justly proud. He requested the privilege of escorting the young men to the rostrum for awarding of Certificates of Merit.

With permission of the Chair, Alderman Danaher escorted Lawrence Mastre and William Gutt to the rostrum, stating that Allan Petrulis was in Champaign in connection with his entrance to college.

Honorable Richard J. Daley, Mayor, thereupon awarded Certificates of Merit to the two young men and requested them to present the award to their companion, Allan Petrulis.
